

Pool Trading Plan

We have made it easy for you as a Victoria Digital World Bank Pool Trading account. Who are not willing to take a risk by trade/lock in pure Pool Trading for the short-term requirement?

Two critical factors that you need to keep in mind before choosing to trade/lock in pool trading - your financial goal(s), the time required to fulfil the goals and your risk-taking ability. Once you are clear about these aspects, please do evaluate a pool trading on parameters such as trader, trading objectives, trading portfolio, performance.
